1953 MG TD

So I have a habit of going to 2nd stores for... well anything I like.  
One day I found this hand made leather binder.  
Looks really well built.  
For the snap, they used a nickel.  
I then took to my brother in Montana.  
Had him laser on the front cover.  
Now This book belongs to MG TD23816.  
It contains every thing about this car and will go with the car, who ever is the next care taker.  
Including the first 3 care takers at bottom.  
I love this thing.
